Projects

[Personal Portfolio](#)

[GitHub Repo](#)

- Developed and implemented modern web technologies, including **React.js**, **Redux**, **Three.js**, and **CSS Animation** to build dynamic, interactive, and visually engaging web applications.

[Shop Store](#)

[GitHub Repo](#)

- This modern project is developed with **Next.js** and **TypeScript**, utilizing **Prisma** for data validation. **Shadcn/UI** is used to style the application with a distinct and elegant approach.

[Dashboard App](#)

[GitHub Repo](#)

- I developed a fully responsive Dashboard page based on a Frontend Mentor challenge using **React.js** and **Redux** for state management. The styling was implemented using **CSS** custom properties (root variables) for consistency and scalability. The layout is fully responsive and optimized for various screen sizes.
